REMARKS

RETURN TO CIA LIBRARY

25X1X

The reconstruction of the second track on the Belzig (N 53/Z 30) - Wiesenburg (N 53/Z 20) line section on the previously double-track Berlin (N 53/Z 75) - Dessau (M 52/E 17) trunk line was approved. The execution of this project however is difficult in view of the well-known shortage of rails.

25X1A

Comment:

The section concerned is a 13-km stretch which greatly reduced the train density of the Berlin-Dessau line and caused constant operational problems because of its grades which had an increased effect on a single-track line. Since rails are still a critical item in the Soviet Zone of Germany the realization of this project will meet with many difficulties.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
